

# The Future of the NNI: A Stakeholder Workshop

August 1-2, 2019

Washington, DC

TENTATIVE AGENDA

The NNI has played a pivotal role in fostering and advancing a dynamic nanotechnology ecosystem in support of the initiative's four goals: advance world-class research, foster commercialization, develop and sustain research infrastructure, and support the responsible development of nanotechnology. Building on this strong foundation, experts across the nanotechnology community will share their perspectives on the key elements required for the nanotechnology enterprise to thrive over the next 15 years.

## DAY 1

8:00 – 8:30 am

**Registration and Coffee**

8:30 – 8:45 am

**Welcome and Intros**, including charge to participants

### Session 1: Vision for the Future of the Nanotechnology Enterprise

This session will explore a **vision** for what nanotechnology R&D can enable over the next 15 years. Based on the ideas discussed in this session, participants will address ecosystem needs to achieve this vision in subsequent sessions.

8:45 – 10:00 am

#### Keynotes

- Keynote 1 – Pending
- Keynote 2 – Pending

10:00 – 10:30 am

BREAK

10:30 am – 12:00 pm

#### Plenary Discussion Panel

- Norman Scott, Cornell University (tentative)
- Dawn Bonnell, University of Pennsylvania (tentative)
- Sudipta Seal, University of Central Florida (tentative)
- Alan Seabaugh, Notre Dame (tentative)

12:00 – 1:00 pm

LUNCH

### Session 2: Needs Across the Nanotechnology Ecosystem

Breakout sessions to discuss **needs** to achieve the vision outlined in Session 1. Each breakout session will be primarily discussion-based and address discussion points provided by workshop organizers.

1:00 – 2:15 pm

#### Breakout Sessions

- Water & Environment
- Energy  
Moderator: Saniya LeBlanc, George Washington University (tentative)
- Aerospace & Automotive
- Electronics

2:15 – 2:30 pm

BREAK

2:30 – 3:45 pm

#### Breakout Sessions:

- Food & Agriculture
- Nanomedicine
- Sensing/Internet of Things
- Infrastructure  
Matteo Pasquali, Rice University (tentative)

3:45 – 5:00 pm

#### Breakout Session Read-Outs

Moderator: Stacey Standridge, NNCO

5:00 – 6:00 pm

#### Townhall Discussion

Moderator: Lisa Friedersdorf, NNCO

Draft

## DAY 2

8:00 – 8:25 am

**Coffee**

8:25 – 8:30 am

**Day 2 welcome**

8:30 – 9:30 am

**Commercialization Panel**

Moderator: Matthew Laudon, TechConnect Innovation

### **Session 3: The Federal Government's Role**

*This session will reconvene the breakout groups from Session 2 to discuss **mechanisms** to address the previously identified needs. The breakout sessions will be primarily discussion-based and moderated by a Federal representative.*

9:30 – 10:45 am

**Breakout Sessions:**

- Water & Environment
- Energy
- Aerospace & Automotive
- Electronics

10:45 – 11:00 am

BREAK

11:00 am – 12:15 pm

**Breakout Sessions:**

- Food & Agriculture
- Nanomedicine
- Sensing/Internet of Things
- Infrastructure

12:15 – 1:15 pm

LUNCH

1:15 – 2:30

**Breakout Session Read-Outs**

2:30 – 2:45 pm

BREAK

### **Session 4: Tying It All Together**

*Building on the conversations throughout the event, this session will synthesize the key findings to identify potential strategic directions for the NNI.*

2:45 – 4:15 pm

**Panel: Synthesis of Workshop Discussions**

- Moderator: Paul Westerhoff, Arizona State University (tentative)
- Quinn Spadola, Georgia Institute of Technology (tentative)
- Additional panelists TBA

4:15 – 4:30 pm

**Workshop Wrap-up**
