

EnvisioNano

An image contest hosted by the National Nanotechnology Initiative (NNI)

Submit your images!

Help us demonstrate how beautiful the nanoscale can be and explain how the research behind your picture may lead to nanotechnologies that benefit society. The goal is to envision where your research is headed and explain how “seeing” at the nanoscale is important to reaching that vision. This contest is for students conducting nanotechnology research in the United States and U.S. territories.

Prize:

The winning submissions will be spotlighted on the NNI website for one month. Additionally, the winning images may appear in official documents and publications for the NNI such as the budget supplement or strategic plan. The National Nanotechnology Coordination Office may also arrange for viewing of the winning images at symposia and technical conferences, such as the [TechConnect World Innovation Conference & Expo](#), June 14 – 17, 2015.

SUBMISSIONS

accepted from January 20, 2015 through March 31, 2015.

PUBLIC VOTING

begins April 7, 2015.
