SAVE THE DATE: October 9–10, 2018

Second Quantifying Exposure to Engineered Nanomaterials from Manufactured Products (QEEN II) Workshop

A technical workshop to highlight recent advances in characterizing and quantifying exposure to engineered nanomaterials in manufactured products.

October 9-10, 2018
Washington, D.C.

Scope:

The 2018 meeting will present advances in nanomaterial exposure science, as well as the progress in bridging exposure, hazard, and risk in assessing the potential impact of nanotechnology-enabled goods and products.

This two-day workshop builds on key themes that emerged from the 2015 Quantifying Exposure to Engineered Nanomaterials Workshop (QEEN).

Registration:

This workshop is free and open to the public with registration on a first-come, first-served basis. Registration will be capped at 180 attendees. The workshop will also include a poster session.

**Registration is scheduled to open on
August 11, 2018.**
